

RASHI GUPTA

Data Analyst • Business Intelligence • Machine Learning & AI

ursrashi24@gmail.com | +91-9569585088 | [LinkedIn](#) | [GitHub](#) | Lucknow, India

PROFESSIONAL SUMMARY

B.Tech CSE student (CGPA 8.85/10) with demonstrated skills in data analytics, machine learning, and business intelligence. Builds end-to-end data pipelines, predictive models, and KPI dashboards using Python, SQL, Tableau, and Power BI. IBM SkillsBuild-trained in Generative AI and Data Analytics. Converts large-scale, multi-source datasets into visualisations that directly inform enrollment analysis, crime trend research, and AI-driven career recommendations.

TECHNICAL SKILLS

Languages & Query: Python, SQL, Java, JavaScript, C | PySpark (familiar)

ML & AI: Scikit-learn, NLP, Computer Vision, Generative AI, Prompt Engineering

BI & Reporting: Tableau, Power BI, IBM Cognos, KPI Reporting, Streamlit, EDA

Databases & Cloud: MySQL, SQLite, Snowflake, IBM Watson Studio | MongoDB (familiar)

ETL & Engineering: Data Pipelines, IBM SPSS Modeler, Feature Engineering, Data Cleaning

Tools & Frameworks: Git/GitHub, Flask, Leaflet.js, Excel, Tailwind CSS, HTML

TRAINING & EXPERIENCE

Data Analytics & Generative AI — IBM SkillsBuild

Feb 2024 – Mar 2024

Virtual Training Programme | IBM | [View Credential](#)

Remote | 1 Month

- Constructed and evaluated classification models in IBM SPSS Modeler across 3 structured datasets, applying feature selection and cross-validation to improve predictive performance.
- Automated data-prep and EDA workflows inside IBM Watson Studio using Generative AI tools, eliminating repetitive pre-processing steps across all programme assignments.
- Produced end-to-end IBM Cognos KPI reports — covering ingestion, cleaning, visualisation, and insight narrative — assessed and approved by IBM programme mentors.

KEY PROJECTS

UIDAI Enrollment Data Analysis [GitHub](#)

Python • Pandas • Tableau • EDA

- Processed 50,000+ UIDAI enrollment records through an automated EDA pipeline, identifying demographic and regional distribution patterns across all 36 states/UTs.
- Mapped geo-demographic enrollment disparities in Tableau across 12+ low-density districts, producing a visual brief to support targeted outreach and coverage improvement strategy.

SAARTHI – AI Career Enhancement System [GitHub](#)

Python • NLP • Flask • Streamlit

- Architected an NLP-powered recommendation engine matching user skill profiles to 100+ curated learning resources across 15+ career domains via Generative AI personalisation.
- Deployed and presented full-stack application to 30+ peers and faculty, receiving recognition for real-world applicability in AI-driven career guidance.

Women Crime Analytics Dashboard [GitHub](#)

Power BI • Streamlit • Leaflet.js • Python

- Engineered an interactive dashboard on 10+ years of NCRB data across all 36 states/UTs, integrating a Leaflet.js geo-heat map and Streamlit dynamic filters — reducing time-to-insight to under 30 seconds.
- Quantified year-on-year escalation patterns across 7 crime categories via statistical EDA, generating state-level evidence used to illustrate resource allocation gaps.

EDUCATION

B.Tech – Computer Science & Engineering

Shri Ramswaroop Memorial University, Lucknow

Relevant Coursework: Data Structures, DBMS, Machine Learning, Statistics, Artificial Intelligence, Software Engineering

Intermediate – PCM + Computer Science

Rani Laxmi Bai Memorial School, Lucknow

Expected 2027

CGPA: 8.85 / 10.0

2023
